Offerors:

Subject: Amendment No. 2 to Request for Proposal No. RAM-3-33200 for “Low Wind Speed Turbine Project – Phase II”

Under the following section of the RFP on page 2, change the following paragraph to add “(>100kW)” and to read as follows:

“Low Wind Speed Technology (LWST) Goal and Strategy

The Federal Wind Energy program has defined goals for its technology development activities that will position wind as an attractive advanced technology option for the twenty-first century. The LWST goal is:

By 2012, reduce the cost of electricity from large wind systems (**>100kW**) in Class 4 winds to 3 ¢/kWh for onshore systems or 5 ¢/kWh for offshore systems.”

The due date for submittal of proposals remains unchanged (11/17/03).
